Dedication . . .

. . . to Mr. R. E. Grant
Bandmaster of Victoria High School

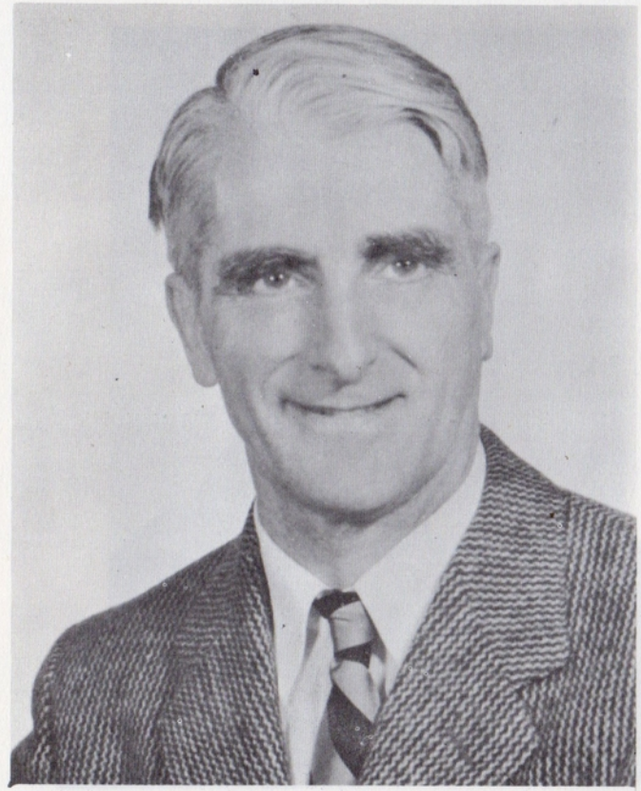
Born at Sandhurst, England, Mr. Grant attended English Grammar Schools until the age of fifteen. He then joined the British Army and completed his matriculation through special tuition. While in the service, Mr. Grant studied music at the Koln School of Music in Cologne, Germany, and the Royal Military School of Music in London. He also saw active service in World War I.

In 1927, Mr. Grant transferred to the Canadian Army, where he held the position of Bandmaster and formed many bands throughout Canada.

At the end of World War II, after twenty-eight years of service in the army, Mr. Grant left to teach music at Duncan, and, after three years there, he came to Victoria High School.

During his service of fourteen years at V.H.S., Mr. Grant has led the school band to victory many times. In 1953, they won the B.C. Provincial Championship, and in all fourteen years, they have only been beaten once in competition.

In appreciation of this fine service to Victoria High School, we dedicate this 1962 annual with gratitude and affection to Mr. R. E. Grant, who is retiring this year.



Foreword . . .

The civilized world of today is experiencing a revolution in education which is making it the keystone of all human endeavour. It is raising our academic sights, so rapidly, and so high, that the standards and aims of the past will soon give way to newer and greater skills at all levels of activity.

It is significant, therefore, that the critical stage in modern education is at secondary level. Here the young people of this country are either won for the service of mankind, or lost to the easy existence of self-satisfied living with consideration for nothing more than mere creature comfort and security.

Again, it is in the secondary schools that the students of today spend the most significant years of their lives. If this were not so, they would fail to enter the world of tomorrow prepared, and trained for what lies ahead.

As the Graduating Class of 1962 leaves Victoria High School, we feel that the three years you have spent in this school will serve as a sound basis for adult life. However, in this day and age, everyone must continue a voluntary day to day education to meet the constant demands of living in a most enterprising and progressive century.

G. A. V. Thomson

Valedictory . . .

For us, the Grads of '62, high school is rapidly ending. Soon we must assume the responsibilities of individuals in the world about us. Some of us will further our education at college, others will proceed directly into the business world. but few will forget the friendship and fun we had at Victoria High School. I am sure, that the guidance and knowledge acquired in our three years of high school, will make us better citizens and individuals.

We should feel deeply honoured to have had many excellent teachers and coaches this year. Few years in the past have had such success in academic and athletic endeavours, and we should be justly pround of our school's traditional colours "black and gold."

Future years will bear many new experiences, I am sure, but none can compare with the pleasure and excitement witnessed in familiar halls of Victoria High School.

Social Committee

Did you notice scuttling noises overhead during the past year, particularly just before the social events? You thought it was mice? Rat? Really!

Actually the noise was the Social Committee, sponsored by Mrs. Watson, which retired to the attic to make decorations for our dances. After arranging for the bands, swearing in scores of temporary helpers, and untying all last-minute knots, they were faced with the task of clean-up.

Head by Carol Hope the member of the Social Committee concentrated on co-operation and teamwork, helped especially by Bruce Wilby, Denis Tusar, Mr. Foxgord, the P.E. Teachers and students, and, of course, Mrs. Watson.

Publicity Committee

Hard at work after school in the attic, the publicity committee strove to attain a high level of school spirit by the use of eye-catching, information posters and signs. Headed by Denis Tusar, the committee reinforced by hard workers—Lloyd Cook, Synnove Peterson, Jo Ellen Graham, Patti Hocking and Darylene Haggarty.

Camosunet

This year's journalism class had a busy time producing five "scintilating" editions of the Camosunet.

Although these budding journalists were guilty of complicity the main responsibility fell upon the co-editors Lynne McConnell and Gordon Pollard as well as the Boys' Sports Editor Robin Jeffrey and the Girls' Sports Editor Eileen McCammon.

Choir

This has been the busiest year ever for the Mixed Choir. The biggest project was a beautifully staged production for the Victoria Musical Arts Talented Students' Recital. Outstanding numbers were the "Chant of the Monks", "Burgundy in Springtime", and Mozart's "Ave Verun" by the choir.

At the V.H.S. Christmas Concert the choir sang carols and excerpts from "South Pacific" for the finale.

At Easter members of the choir journeyed to Vancouver to take part in the Canadian Music Conference All-B.C. Chorus.

The choir was under the capable guidance of Miss Douglas, and the executive consisted of President: Judy Roberts, Secretary: Gwen Eekman and Treasurer: Nancy Jones.

The Music Appreciation Club

The Music Appreciation Club, in addition to its usual programmes (at which students listen to recordings of various kinds of music while doing homework, reading, or just relaxing) had several programmes of a different type this season.

These special meeting consisted of an interesting talk by sponsor Mr. Roberts, entitled "What is this thing called Music?" and a special programme presented by a group of the school's talented students. The turnout was encouraging, indicating that similar programmes might be successfully presented in the future.

In all, it has been a very profitable year and the club looks forward to an increase of members who enjoy studying in a pleasant and cultured atmosphere.

TOTEMS

Once again our Totems brought fame and glory to Victoria High School! Completing an outstanding year, this team bounced circles around every favoured team in B.C. to bring home the coveted prize.

During the season they scored decisive wins over every team in the city to collect both the Inter-scholastic Tournament and lower Island Championships. In the Island Tournament they had trouble with the hustling Tsolum Saints and placed third. In the B.C. Tournament they bounced back with a heavy victory over the Saints and went on, defeating all mainland teams, to become the new B.C. Champs.

Only a well-trained team could accomplish these results, and certainly much of this honour goes to their excellent coach, Mr. George Andrews.

The 1962 champs are:

"Golds" Volleyball Team

The "Golds" Rep. Volleyball Team started out the '61-'62 season with a tremendous victory by winning the annual Island Tournament held at Victoria College. Undefeated during tournament play the Golds won the finals by defeating last year's champions, North Saanich, in two straight games.

In regular league play the golds won three out of four games losing to Oak Bay, and winning over Mt. View, Esquimalt, and Mt. Douglas.

With Pam Crutchlow as captain, the team consisted of Mary Paxton, Mary Pearson, Roslyn Hammer, Gillian Thomas, Val Taylor, Darylene Haggarty and Eileen Mellors.

"Blacks" Volleyball Team

Victory has been the keynote of the Girls' Senior Black Volleyball Team this year. The girls' team defeated all opponents in league play including Mount View, Oak Bay, Esquimalt, and Mount Douglas.

Irene Barrick, captain; Barb Reason, Freda Hass, Carol Thomas, Brenda Ferguson, Sharron Skinner, and Margaret Morgan made up this year's team.

MAISON GEORGES Latest Hair Styling at Prices to Fit Your Budget at Either of Our TWO Locations — 633 Fort St. — 747 Pandora Ave.

Cross Country

Winning several invitational meets and one major trophy race, this year's team maintained Vic High's fine reputation in long distance running. Our runners defeated everyone in B.C. and the major high schools in the Pacific Northwest with the exception of the powerful Lester Pearson squad from New Westminster.

Trips were made up-Island, to the Mainland, and to the United States, where the team represented Victoria High with distinction. With holdovers Earl Speakman, Kevin McCullough, and John Dodds setting the pace, the team is optimistically looking forward to next year.

This year's team members included Bill Blann (captain), Cliff Edwards, Harry Lund, Mike Mackwood, Terry Frewing, Earl Speakman, John Dodds, John Anderson, Kevin McCullough, Chuck Murdock, Steven Holemes, Don Little and Dave Stevens.

Track and Field

Under the sponsorship of Mr. Price, the Track and Field Club has had a very successful year.

It was initiated this year with an aim to produce a well trained track team to uphold Vic High's traditional leadership in track and field.

Members have made commendable showings in the many meets throughout the year.

Curling Club

Under the sponsorship of Mr. Hardie, Mr. D. E. Smith, Mr. Seens and the instruction of Mr. Gar Taylor of the Victoria Curling Club, the 1961-62 Victoria High School Curling Club had a very successful year. This year's executive consisted of Bob McPherson president, Bernice Edwards, secretary, and Val Taylor, treasurer.

League play was held on Monday, Tuesday and Wednesday with the league championship being won by Jack Trueman's rink. The team consisted of Anne Zannet, lead, Vicki Rigby, second, Larry Cole, third, and Jack, skip.

For the first time, City Girls playdowns and Pacific Coast Girls Playoffs were introduced. They both proved a tremendous success.

The CJVI trophy was again won by a Vic. High rink, consisting of Brian Harvey, lead, Larry Cole, second, Jack Trueman, third, and Bob McPherson, skip.

Swim Club

Representing Victoria High School in Vancouver's Provincial Swim Gala, Pam Crutchlow and Mary Pearson returned with four bronze medals. It is hoped to have a successful swim club next year under the sponsorship of Mr. Smyth and perhaps an inter-house "splash party" would spark some enthusiasm into dampened spirits.

Badminton Club

Sponsored by Mr. Preston, Mr. Francis, Mr. Tangee and Mr. Kay, the ever popular Badminton Club this year has been headed by: Mary Pearson, President, Dennis Davies, Vice-president, Rita Gustus, Secretary; and Tournament Convenors, Myna-Gay Fyfe and Brian Whitten.

The executive and many active members made this year's club a success.

Table Tennis Club

Although smaller this year, the Table Tennis Club had a very successful season under the capable sponsorship of Mr. Francis.

The executive consisted of Gary Restell, President; Andy Stewart, Vice-president; and Lorraine Lowe, Secretary-treasurer.

Once again our rep. team retained the Colonist Cup for Vic High as they beat Mount Douglas High School 13 out of 16 possible games. The team this year was represented by Lorraine Lowe (the first time a girl has been on a rep. team), Wilf Nenzi, Gary Restell, and Rick Pye(who has been on the rep. team for four years).

The boys' singles tournament was won by Gary Restell and the doubles won by Rick Pye and Wil Nenzi. The girls' singles tournament winner was Lorraine Lowe and the doubles winners were Lorraine Lowe and Gillian Thomas.

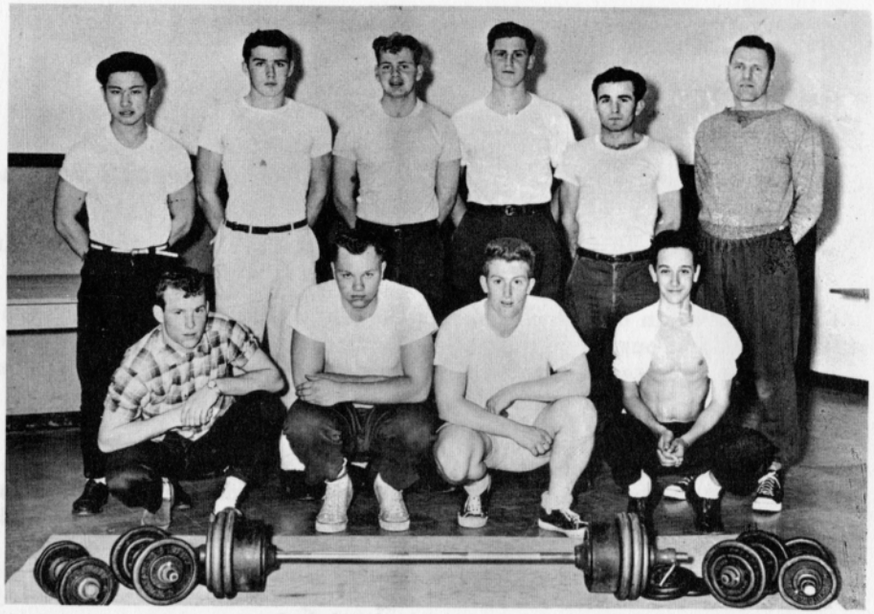
Gymnastics Club

Taking in all phases of gymnastics, Vic High's ever popular Gymnastics Club, under the capable sponsorship of Mr. Tucker, entertained basketball spectators at half time.

Activities of the group include box and springboard, mat tumbling, high bar, pommell horse, rings, and free exercise.

Under captain Bob Young, vice-captain John Geisenger and advisor Pat Scott, the club has had an exceptionally successful year.

Weight Lifting Club



Formed in January, on the suggestion of one or two boys, the Weight Lifting Club has enjoyed a good year.

Starting with a large number, the club has settled down to the few who have seen and felt the advantages of weight lifting.

The main purpose of the club is to help build a strong, healthy body, and this will be the result for those who have attended regularly. The sponsor for the group is Mr. Runer.

Bowling Club

Backed by Mr. Evans and Mr. Harwood, President Rodney Evans worked hard to keep up the excellent standard of this year's large bowling club.

There were two leagues running all season with play-off held in each. Monday's League champions were the "Five Aces' and the "Strikers" won the Tuesday League championship. There was also a special league championship play-off won by the "Strikers".

House competition was keen this year with House IV winning.

John Anderson won the High Average Trophy with 207 and Denis Tusar won the High Single Trophy with 338. Six very active members made up the "300 Club".

Vic High also won the Inter High competition for the Rose's Jeweller's Trophy, competing against Esquimalt, Mt. View, Oak Bay and St. Louis and St. Ann's. From there the Rep. Teams went on to win the Inter School Invitation Match against Nanaimo High School. The Boys' Team then placed second in the B.C. and Western Canadian Championships.

Basketball Officials

The group of Grade 11 girls with "lots of school spirit" combined service with fun to form the "Timers and Scorers Unlimited" club.

During the year they encountered many problems, but managed to iron them out one by one. House games served as a mild initiation and training school for the more-difficult junior rep. games.

After the annual Basketball Jamboree at Central Junior High School, they found themselves right in the thick of the Totem games. But their biggest victory of the year, they claim, was the mastery of "that tempermental monster", the new electric scoreboard.

The girls applaud their "chief problem-solver and guiding light", Mrs. Esslemont. Mr. G. Andrew, Mr. Lorimer, and the Van Isle Referees also helped the group.

Headed by Rita Gustus, the officials were Brenda Ferguson, Roslyn Hammer, Donna Wallace, Beverley Porter, Carol Packford and Sandy Hope.

Victoria

Look about this town of ours:
It's sunny streets, quaint homes and towers
And vast array of flowers.

Gaze to south across the sea,
And glimpse Olympic's majesty
With clouds upon her knee.

Also south, is Puget Sound,
Where salmon swim and boats abound;
And beaches sandy-crowned.

Broad Pacific is to west.
She is the seagulls' might nest;
Their cradle is her crest.

To the west are miles of beach
Full fifty miles north-west beseach,
To golden Nootka reach.

North, the Malahat does rise.
Below her, fruitful Saanich lies
Beneath sweet, sunny skies.

You will recall the warm Gulf Isles.
Saltspring, Gabriola smiles,
And sweetly she beguiles.

To the east Vancouver hives,
Where industry and business thrives
With hustling, bustling lives.

Also east is Georgia Strait.
Here all is as it was of late
In Canada's western gate.

In Victoria is quiet.
Restful peace is nature's diet.
Won't you come and try it?

Sylvan Solitude

I have been walking through the wood, the plush green carpet springy underfoot, the chandeliers of sap sparkling overhead. And now I rest, sitting on a mossy log which has presented itself in the very middle of this lonely path. All is still . . . but no, nature is never still. There far off, a chipmunk chatters and a starling flutters about his business. Yet all that seems very remote, and here the very air has paused its breathing. The path stretches out to infinity on either side of me. Here the sun shines ever; softly, gently, as if afraid itself to stir this peaceful hush. The trees are staunch; the bushe stand eterna. This is the joy of death.

Silence

Silence, according to dictionary definition
Means complete absence
Of sound;—not so in life.
No—in life it is a combination
Of subdued noises: the cricket's chirp,
The harmony of bees, the breeze in the grass,
Perhaps at night, the croaking of frogs, or the lovers' whisper,
The slowed-down workings of the world—
So. Else it were a dull, crashing void,
Empty of everything, and so painful to endure
That even 'midst man and his deafening madness,
One would never wish for true quietness.
One can shut out noise, but not silence.

PHILIP ADAMSON

Snow

Snow was not meant for cities. It sifts down
Like gentle soap flakes, smoothing out the sands
Of grumbling life, or like minute hail, lands
And bounces on the sidewalk. 'Tis the crown
That jewels mortals' struggle, and the gown
In which the earth, scars hid, serenely stands,
And, beckoning to urbanites, commands:
"Rejoice in the new-born beauty of this town."
But heedless men with blinded foresight brush
From walks and roads Earth's only purity,
And scraped in formless piles, it rots to slush,
And from the corpse discolored tears run free.
In the glaring day, there is no reverent hush,
While Nature mourns her wasted charity.

To Be Or Not To Be

Everyone agrees that today's world is a dangerous place to live in. The destructive powers of mankind have reached the point of no-return. Complete destruction of the world could be accomplished at a minute's notice.

Mankind has made the monumental error of letting his knowledge of nature far outstrip his knowledge of himself. He is at once a giant and a child. He is like an infant playing with matches; he may well burn his house down.

Plainly, we are on the very brink of disaster.

How can mankind remedy this perilous situation?

The answer is simple. Our problem lies with people. The people themselves must therefore be changed. To change the people we change their thinking. This can best be accomplished by education.

It has been repeatedly demonstrated that an educational system can wield a tremendous influence on the nature of society. Schools have often been created solely for the purpose of shaping the thoughts of a younger generation. The school has long been civilization's favourite tool for molding her society.

How can the school effect a beneficial change in society?
It must concentrate, not on nature, but on human nature, not on the world but on man himself.

By doing so, mankind will counteract and compensate for his present faults. The problems presented by his irregularity of development will die a natural death.

No longer a freak, man will become whole. His thoughts and accomplishments will regain symmetry, have purpose, meaning and direction.

No longer a child but a well-rounded individual, man will be fit to live in the world he created.

The question of education could well be the question of survival.

RICH OGMUNDSON.

Land of the evergreen, sea and rocks,
Where rain laden clouds engulf the mountain tops;
And seagulls cry above the spray
To bring to them, their lunch, their prey.

Land of the fisherman, who up at dawn
Harvest the crop the sea has spawned.
At close of day to harbour and lea
He brings his catch from the depths of the sea.

Land of inlets cool and deep,
Where sloping mountain and ocean meet;
Where summer fogs drift like ghosts,
And winter rains become their hosts.

Land of calm and land of storm,
Where islands rise from mists of morn,
And settle in the clock of eve.
The land I love, and will never leave.

Night On The Coast

The sun has set below the sea
And night takes over from day.
The fishboats head toward a lea,
To find the safety of a quiet bay.

Except for the surge upon the beach
All is calm and still;
The distant stars, so far from reach
Across the sky appear to spill.

Above the mountain a full moon climbs
Giving light to the darkened land;
Like fountains of Rome, stand the glistening pines,
While a silver sea washes on silver sands.

Softly the boats at anchor ride,
Rolling gently in the swell of the bay.
While a loon restfully floats on a rising tide,
Waiting for the approaching day.

Soon the moon will have made her arc
And a new day's light will appear,
The stars will fade, and leave no mark
And night will disappear.

Death

Death, riding down the deep dark silence
Of the night.
Death, self-perverted malice, queenly stealth,
With her wand of poison, pricking the sky-skin
And the stars glittering cold infection.
Death, with her archangels of evil:
Pain, remorse, and self-pity.
Death, and her train.
But man suffering not unmuted anguish,
Endures these curses of the void;—
For God, even as he overrides all,
Overrides Death.
The stars he heals with his brilliant light,
The darkness, overcomes with pale moon-water.
And when Death, the still-inevitable,
Sceptreless arrives,
He purges her aides;—pain becomes peace,
Remorse, content; and from self-pity
Comes soul-rejoicing.

Who Is The Man?

Who is the man who has conquered fear?
Let him step forward;
For he is a man who has no peer;
He is the man the ship to steer;
In the face of the winds, his lips to sneer;
Let him step forward.

Who is the man who has never cried out
While suffering pain?
Who is the man who has never known doubt
When problems beset him and mockingly flout?
Stand forth, and help us the enemy rout
And freedom gain.

The bugle's call is ringing loud
And echoes clear.
It calls him forth, cut from the crowd
Or out from fields, freshly plowed
To help his people oppression bowed,
His own held dear.

Optimism – Ingredient For True Leadership

This is an elusive topic and in order to understand it, we must have it clearly defined in our minds.

Firstly what is an optimist? Each of us will have a different definition of this word but I consider an optimist to be something more than, as described in a dictionary. He is not, to my mind, the "hail-fellow-well-met" type who greets you with a toothy smile and a slap on the back whenever you meet; nor is he so stupid as to think that all things will work out for the best without effort. An optimist is best defined, I think, by this quotation from Cardinal Newman: "He interprets everything for the best, he is never mean or little in his disputes; never takes unfair advantage; never mistakes personalities or sharp sayings for arguments; or insinuates evil which he dare not speak out. He knows the weakness of human reason as well as its strength, its province, and its limits." Newman was speaking of a gentleman, I am speaking of an optimist—but the two terms are synonymous—an optimist must be a gentleman just as a gentleman must be an optimist.

And secondly, true leadership. This is the God-given power by which man leads—not by force of arms; not by deceit; not by the following of paths of demagogues—but by the sheer magnanimity of his character.

How can a man lead the masses if he cannot lead himself? How can a man have people follow him if he tells them only of the black night but never of the stars in the sky? The answer is obvious—he cannot. Therefore is it possible for a man to lead if he is not an optimist? The answer is again obvious—it is not!

True leaders, great leaders, must possess this elusive, this indefinable, this wonderful quality—optimism. Great leaders become great only when they face a task completely insurmountable—when they have overcome this, then they are great: And what has been their chief weapon against their tremendous difficulties? I can answer in a word—optimism!

Churchill, Lincoln and Ghandi, to name perhaps the three greatest truest leaders to set foot on this planet since Christ himself, are superb examples of Optimism—ingredient of true leadership. All turned, in their darkest hour, to their brightest weapon—optimism.

Churchill, when Britain stood alone and naked against the most abominable tyrant ever to blacken the pages of history; Lincoln in the dreadful days of his pilgrimage against slavery and the preservation of the greatest federation on the globe; and Ghandi, always a man of honour, during that time when he strove for the independence of his country against indescribable opposition.

What men! What leaders! What optimists!

In the history of the world there have been many optimists who were not leaders but never has there been a true leader who was not an optimist!

A Spring Storm

Sweeping clouds scuttled across a clear sky.
The wind gave ripples to an ocean so blue.
Silver white seagulls glistened in the blue of the sky.
Gust after gust picked up momentum till it flew,
And picked up the frothy white foam.
It whistled and howled in a shrieking tone,
Gathering up water from an ocean so deep.
Slowly it built into an early spring storm,
Then drifted back out to sea where it was born.
It left me behind at peace in my sleep.

Ebony

A searchlight flashing through the ebony sky,
Shining brightly where the heavens lie.
Ebony waves crashing down on the rocks
Crushing and tearing the ebony docks;
The searchlight lightens, and brightens the night
Unveiling a ship on the ebony heights;
Faster and faster a ship sails near
Hoping to reach the ebony pier; But—
Blacker and blacker grows the dark night sky
Releasing a wind from its circular eye;
The ebony ship staggers closer to shore,
Where the ebony waves hit the rocks with a roar.
The lighthouse silently manages a cheer
When the ebony ship reached the ebony pier.

Fear

I rushed out of the house, my heart pounding wildly, my eyes wide with terror. Bells clanged, whistles blew, horns blared, but above the jangle and clatter rose the roaring of the flames. I ran. Everyone ran; but the flames swept on, leaping hungrily at the old frame buildings, and at the new stuccoed houses, but always closer and closer to the ammunition stores. When they reached the latter, it would be the end. I stumbled over the hot ground. All around me, people fell, struggled for a moment, and gave up. The river was only half a mile away—if I could only reach it—but my legs would not hold. I collapsed and drifted off into a dead faint.

A Short Sketch

The wind swept over the wide, rolling plain, whisking up the dry earth, flinging it stinging on to the sparse and stunted growth. The clouds scurried across the grey, open sky. Far up on the heights an eagle hovered, watching with hungry eye for some earth-bound tidbit. A gopher stirred from its hole, sniffed, and flashed across a strip of sandy soil. The eagle plunged; there was a small, short cry, and the great bird was off, with the gopher hanging limply in its talons. A broom bush swayed with the wind. Night fell.
